Technology that leading berry companies trust.

SCiO Cup has found a home among top-of-market berry companies because of the new possibilities it offers.

Companies can ensure berry quality coming in—and accurately reward their growers as a result—improving efficiency across the entire operation.

Easy
to use:

Give your operation an edge.

With SCiO Cup you're empowered to always make the optimal decision. Immediate analysis improves efficiency (and the bottom line) right in the field.

And the cloud-based app tracks everything you test, allowing you to see trends across time. Plus, the app is intuitive, works online or offline and helps you monitor your operation.
